Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 50. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

OFFICIALS IN DOUBT

As to Our Authority Over the Captured Territory—State Department Receives Congratulations From Panchofote Over the Termination of the War—Reinforcements and Ammunition For Merritt—Chickamauga News—Telegraph Censorship Removed—Natives In Porto Rico Show a Disposition to Persecute Spanish Residents.

London, Aug. 19.—The Madrid correspondent of the Daily News says that Generals Blanco and Castellanos Leon and Admiral Manterola, have been appointed commissioners for Cuba and Generals Macias and Ortega and Ad-

General Blanco, one of the Spanish commissioners appointed by Spain.

miral Vallarino for Porto Rico. It is probable, the correspondent says, that General Leon y Castillo, the Spanish ambassador to France, will preside at the sessions of the Paris commission. General Moret's candidature is made impossible by the hostile attitude of the press.

OUR AUTHORITY.

Officials In Doubt As to Its Extent In the Philippines. Washington, Aug. 19.—The war department made public yesterday the dispatch of General Merritt, giving the official story of Manila's fall, and also the text of the significant instructions sent General Merritt, requiring the insurgents and all others to recognize the authority of the United States in the territory occupied by our forces.

Nothing has been heard from General Merritt as to the casualties last Saturday, except that he estimated the killed and wounded at 50. Another point on which the officials are without definite information is as to the extent of our present authority in the Philippines.

Under the peace protocol the United States was given the occupation of Manila, with the bay and harbor, until a permanent disposition of the Philippine

question was reached, but according to press dispatches, which are so circumstantial as to be credited in most official places, General Merritt and Admiral Dewey received the capitulation of the entire Philippine Archipelago.

There appears to be some doubt, therefore, even among officials, as to whether our present authority and jurisdiction covers Manila only, as provided by the peace protocol, or covers all the Philippines, as provided by the reported terms of capitulation to Merritt and Dewey. There is a disposition to await fuller official information before laying down a policy as to the extent of our jurisdiction in the islands.

Secretary Alger said that he had heard nothing official of the surrender of the entire Philippine group. At the same time the secretary did not discredit the accuracy of the press advices stating that the capitulation had this far-reaching effect.

Will Await Definite Information. Pending more definite information the attitude of officials is to assume that our authority covers Manila city, Manila bay and harbor, and also such other territory as may be occupied by the military and naval forces. The latter phrase is elastic enough to cover any or all of the Philippine Islands that may have been brought under our authority by the recent surrender.

The instructions sent to General Merritt have in view the expansion of our possessions beyond the terms mentioned in the protocol as they distinctly state that this government is in possession of Manila and that its authority to preserve peace and order will be exerted "within the territory occupied by their military and naval forces." The cabinet meeting today is expected to deal with the many detailed questions concerning the Philippines, Cuba and Porto Rico, which have arisen since the peace protocol was signed.

The state department has received another international congratulation on the restoration of peace, this one coming from the British ambassador, Sir Julian Pauncefote, who is now sojourning at New London, Conn. The ambassador communicated the expression of profound gratification with which his majesty's government learned of the signature of the preliminaries of peace between the United States and Spain and the sincere congratulations to the president and the government of the United States upon the termination of the war.

Acting Secretary Allen extended to the French ambassador, M. Cambon, the courtesy of going on the flagship New York during the naval review at New York tomorrow. The ambassador had already arranged, however, to witness the review from the tug of the French Transatlantic line.

NEXT WEEK

The Troops at Chickamauga Expect to Move to Their New Camps. Chickamauga, Ga., Aug. 19.—There is no longer any doubt about the early departure for new camping grounds of the Second and Third divisions of the First corps. General Breckinridge, acting under instructions from Washington, has issued orders to General McKee, commanding the Second division, and General Sanger, commanding the Third division, to hold their respective regiments in readiness for departure. The camp at Knoxville and that at Lexington, Ky., are being put in proper condition as rapidly as possible. Water-pipes are being laid and all the details are expected to be ready within a few days.

It is General Breckinridge's opinion that the orders to move camp will be executed during the early part of next week. General McKee's brigade will probably march to Knoxville, a distance of 120 miles.

CEDED THE ARCHIPELAGO.

Terms Agreed Upon by Merritt and Jaundenes Give Us the Philippines. London, Aug. 19.—The Hong-Kong correspondent of The Daily Mail says: "The terms of the capitulation of Manila, as agreed upon Saturday between General Jaundenes and General Merritt, includes the cession of the Philippine Archipelago to the United States."

"An American naval officer who arrived from Manila on the Zafra tells me that the Americans practically walked into Manila. The operations, he says, were confined to the Malate side of the city, where the Spaniards had a fort and two lines of trenches. The troops waded through the Malate river and walked up the beach as though going to lunch, meeting practically no opposition."

"I learn that when General Merritt went ashore after the capitulation of Manila he experienced some difficulty in finding General Jaundenes, who ultimately was found in a church among a crowd of women and children."

UNPROVOKED MURDER

Alonzo Andrews, 160th Indiana, Shot Down In Cold Blood.

JACOB ALTMIRE WOUNDED

Shots Were Fired by a Colored Saloon-keeper at Bloodfield, a Negro Settlement Near Newport News—Martial Law Declared—Skirmish Line Thrown Out to Prevent Andrews' Comrades Avengeing His Death.

Newport News, Va., Aug. 19.—Private Alonzo Andrews of Company I, One Hundred and Sixtieth Indiana regiment, was shot and killed by Samuel Hall, a colored saloonkeeper in Bloodfield, a negro settlement in this county, yesterday afternoon. Then Private Jacob Altmire of the same company was wounded in the left foot by the same negro. Both of the men formerly lived at Elwood, Ind. The shooting seems to have been unprovoked. Hall was in a buggy when the shooting occurred, and his horse was in a gallop. He raised up and fired out of the back of the vehicle. The negro was arrested and lodged in the city jail, but the feeling against him was so intense that the sheriff took him out of the town for safe keeping.

Bloodfield is low under martial law and a provost guard patrols the city. A skirmish line was thrown out at Camp Grant last night to keep the company of which Andrews was a member from breaking out to avenge the murder of their comrade.

FEAR AMERICANS

Will Keep the Philippines and Extend Their Influence In the East. London, Aug. 19.—The Vienna correspondent of The Times says: "The development of the Philippine question will be watched here with keen interest. Circumstances appear to point to the retention of the islands by America. The fact that Senator Davis, who is a public advocate of complete annexation, and the secretary of state, a supporter of the Hawaiian policy, are appointed commissioners, is regarded as indicating that President McKinley favors their retention."

"It is acknowledged that President McKinley has hitherto manifested exceptional diplomatic tact in his treatment both of the Spanish government and of public opinion in the United States. He conducted the negotiations with such foresight and consideration that the Madrid cabinet has been able gradually to accustom the population to the inevitable sacrifices imposed by the outcome of the war."

"For this reason the mere fact that absolute cession of the Philippines was not expressly stated in the protocol by no means should be regarded as excluding that possibility of at least some approximation to the growing demands of the American people. The prospect of a partition of China is likely to confirm this tendency of American people. The United States are deeply interested from a commercial and industrial standpoint in the future of East Asia. They have the most favorable geographical situation of all the great manufacturing countries, competing there, and it is argued that such an enterprising, energetic people will not willingly forego the present opportunity of securing a footing in those seas which will enable them to establish large mercantile emporiums similar to those already possessed by the English on the main land and which other states are about to found. This consideration is expected to have weight in the final decision of the Philippine question."

COLONEL ROOSEVELT

His Lips Sealed on Political Matters While Wearing a Uniform.

New York, Aug. 18.—General Joseph Wheeler last night took command at Camp Wikoff, at Montauk Point, succeeding General Young. The event of the day outside of the arrival of General Wheeler was the discharge of the rough riders and Colonel Roosevelt from the detention camp. There was not a suspicion of serious illness among the men and all were much improved by their stay in the camp. Colonel Roosevelt was in the Third house for some time conferring with a number of friends, who made no secret that their mission was political.

Colonel Roosevelt said, when asked what he thought of the political situation, after reading the newspapers which he had been doing with apparent great interest, replied that his lips were sealed, so far as politics was concerned, by his uniform. While he wore the uniform of the United States army he could not discuss politics or personal matters for publication.

MODEL PRISONER

Discovered Stealing Shoes at the Kentucky State Penitentiary.

Frankfort, Ky., Aug. 19.—Warden Lillard and his assistants at the Frankfort penitentiary have unearthed a big steal that has been going on for a long time in the shoe department. The shoe manufacturers had complained about losing shoes before the prison changed hands Aug. 1, but no one had been caught. Now Samuel Davis, a negro from Woodford county, who has been regarded as a model prisoner, has been detected with several pairs of shoes in his possession.

He is the ringleader and implicated other prisoners and a former guard at the prison. Their plan was to smuggle the shoes out by "trusties," who sold them to citizens. Several hundred dollars' worth were smuggled out, one and two pairs at a time.

OUR AUTHORITY.

Officials in Doubt As to Its Extent in the Philippines. Washington, Aug. 19.—The war department made public yesterday the dispatch of General Merritt, giving the official story of Manila's fall, and also the text of the significant instructions sent General Merritt, requiring the insurgents and all others to recognize the authority of the United States in the territory occupied by our forces.

Nothing has been heard from General Merritt as to the casualties last Saturday, except that he estimated the killed and wounded at 50. Another point on which the officials are without definite information is as to the extent of our present authority in the Philippines.

Under the peace protocol the United States was given the occupation of Manila, with the bay and harbor, until a permanent disposition of the Philippine

In the olden days men were physically at least, worthy of the admiration of women. It is a great pity that something for a woman to feel that her husband is a man, is true, a capable and intrepid protector. It is a comfort for her to feel that he has the physical stamina and courage to defend her through all the vicissitudes of life. Nowadays there is not much to admire about the average man. He may be a moral and a mental giant, but the flesh of ill-health is weak, and he is probably a physical coward. It is not in nature for a sickly man to be a brave man. His spirit may be willing but his body is weak. That is the man's own fault. Any man can be healthy who will pay a little common sense attention to his health. Dr. Pierce's Golden Medical Discovery is the greatest medicine for disorders of this nature. It strengthens a weak stomach, corrects all disorders of the digestion, gives edge to the appetite, invigorates the liver, purifies and enriches the blood and tones up and invigorates the nerves. It searches out disease germs, kills them and carries them out of the system. It is the great blood-maker, flesh-builder and nerve-tonic and restorative. It makes strong, healthy men out of weak, sickly invalids. Medicine dealers sell it and no honest dealer will urge a substitute upon you.

"I have been taking Dr. Pierce's Golden Medical Discovery and 'Pelle's' and must say that they have worked wonders in my case," writes Mr. L. L. Pack, (Box 175), of Hinton, Summers Co., W. Va. "I feel like a new person, in fact I think I am well, but will take one more bottle to make sure the cure is permanent. I cannot speak too highly of the 'Discovery.' It has done anything now without injury to my stomach. I have gained some eight or ten pounds, weighing as heavy as I did three years ago." "The medicine certainly worked like a charm on me, but when I first began to take it I felt a little worse for a few days, had pains through my body and bones, but all this left me after taking the medicines four or five days."

question was reached, but according to press dispatches, which are so circumstantial as to be credited in most official places, General Merritt and Admiral Dewey received the capitulation of the entire Philippines Archipelago.

There appears to be some doubt, therefore, even among officials, as to whether our present authority and jurisdiction covers Manila only, as provided by the peace protocol, or covers all the Philippines, as provided by the reported terms of capitulation to Merritt and Dewey. There is a disposition to await fuller official information before laying down a policy as to the extent of our jurisdiction in the islands.

Secretary Alger said that he had heard nothing official of the surrender of the entire Philippine group. At the same time the secretary did not discredit the accuracy of the press advices stating that the capitulation had this far-reaching effect.

Will Await Definite Information.

Pending more definite information the attitude of officials is to assume that our authority covers Manila city, Manila bay and harbor, and also such other territory as may be occupied by the military and naval forces. The latter phrase is elastic enough to cover any or all of the Philippine Islands that may have been brought under our authority by the recent surrender.

The instructions sent to General Merritt have in view the expansion of our possessions beyond the terms mentioned in the protocol as they distinctly state that this government is in possession of Manila and that its authority to preserve peace and order will be exerted "within the territory occupied by their military and naval forces." The cabinet meeting today is expected to deal with the many detailed questions concerning the Philippines, Cuba and Porto Rico, which have arisen since the peace protocol was signed.

The state department has received another international congratulation on the restoration of peace, this one coming from the British ambassador, Sir Julian Pannecote, who is now sojourning at New London, Conn. The ambassador communicated the expression of profound gratification with which her majesty's government learned of the signature of the preliminaries of peace between the United States and Spain and the sincere congratulations to the president and the government of the United States upon the termination of the war.

Acting Secretary Allen extended to the French ambassador, M. Cambon, the courtesy of going on the flagship New York during the naval review at New York tomorrow. The ambassador had already arranged, however, to witness the review from the tug of the French Transatlantic line.

NEXT WEEK

The Troops at Chickamauga Expect to Move to Their New Camps. Chickamauga, Ga., Aug. 19.—There is no longer any doubt about the early departure for new camping grounds of the Second and Third divisions of the First corps. General Breckinridge, acting under instructions from Washington, has issued orders to General McKee, commanding the Second division, and General Sanger, commanding the Third division, to hold their respective regiments in readiness for departure. The camp at Knoxville and that at Lexington, Ky., are being put in proper condition as rapidly as possible. Water-pipes are being laid and all the details are expected to be ready within a few days.

It is General Breckinridge's opinion that the orders to move camp will be executed during the early part of next week. General McKee's brigade will probably march to Knoxville, a distance of 120 miles.

CEDED THE ARCHIPELAGO.

Terms Agreed Upon by Merritt and Jaendenes Gives Us the Philippines. London, Aug. 19.—The Hong-Kong correspondent of The Daily Mail says: "The terms of the capitulation of Manila, as agreed upon Saturday between General Jaendenes and General Merritt, includes the cession of the Philippine Archipelago to the United States."

"An American naval officer who arrived from Manila on the Zafiro tells me that the Americans practically walked into Manila. The operations, he says, were confined to the Malate side of the city, where the Spaniards had a fort and two lines of trenches. The troops waded through the Malate river and walked up the beach as though going to lunch, meeting practically no opposition."

"I learn that when General Merritt went ashore after the capitulation of Manila he experienced some difficulty in finding General Jaendenes, who ultimately was found in a church among a crowd of women and children."

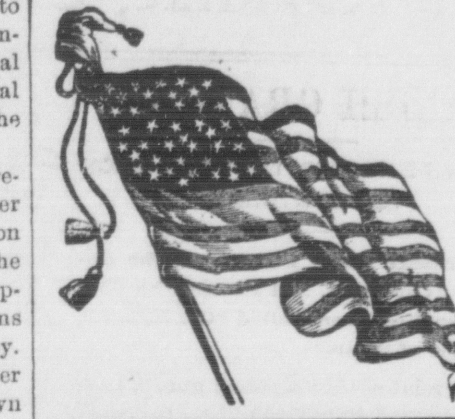

GOING TO HONOLULU.

New York Troops Sail on the Alliance—Ammunition For Merritt. San Francisco, Aug. 19.—Three hundred and twenty-five officers and men of the New York regiment have embarked on board the steamship Alliance and will sail for Honolulu today. The Red Cross society furnished the New York boys with a luncheon before they went on board ship.

When the Scandia and Arizona sail Sunday they will have on board, in addition to their complement of reinforcements for General Merritt, a million rounds of ammunition for small arms. It is now being rushed from the east by fast trains and will be placed on the ships tomorrow.

RESORT TO RETALIATION.

Porto Rico Natives Avenge Themselves on Spanish Residents For Past Outrages. Ponce, Porto Rico, Aug. 19.—The natives show a disposition to persecute

The Spanish residents and several minor riots have occurred here. At Yauco the natives threw stones and bricks into Spanish shops in retaliation for outrages committed within the Spanish lines. The military have been ordered to suppress these demonstrations and punish the offenders.

General Miles and staff went to General Wilson's headquarters at the front yesterday. They were escorted by a troop of cavalry.

The personnel of the commissions for Cuba and Porto Rico are highly commended. General Grant joined General Brooke today.

CENSORSHIP REMOVED.

As to Code or Cipher Dispatches to Cuba and Porto Rico. New York, Aug. 19.—General Greely has sent notification to the telegraph companies as follows: "Censorship is raised on all commercial, code or cipher dispatches to and from Cuba, Porto Rico and all West Indian islands. In addition arrangements have been made with the Spanish government authorities whereby they agree to abolish similar restrictions on code messages in Cuba. As the Spanish still exercise censorship over press messages and over private telegrams containing statements injurious to the interests of Spain, similar action will be taken regarding like messages in the United States, but the censorship will be of the most liberal character."

Designated Fiscal Agents. Washington, Aug. 18.—The firm of De Ford & Co. of Boston, has been designated by the president, until otherwise ordered, the fiscal agents of the United States in such parts of the island of Porto Rico as are now or may hereafter come under the military jurisdiction of the United States. The bond required is in the sum of \$250,000.

UNPROVOKED MURDER

Alonzo Andrews, 160th Indiana, Shot Down in Cold Blood.

JACOB ALTMIRE WOUNDED

Shots Were Fired by a Colored Saloon-keeper at Bloodfield, a Negro Settlement Near Newport News—Martial Law Declared—Skirmish Line Thrown Out to Prevent Andrews' Comrades Avenge His Death.

Newport News, Va., Aug. 19.—Private Alonzo Andrews of Company I, One Hundred and Sixtieth Indiana regiment, was shot and killed by Samuel Hall, a colored saloonkeeper in Bloodfield, a negro settlement in this county, yesterday afternoon. Then Private Jacob Altmire of the same company was wounded in the left foot by the same negro. Both of the men formerly lived at Elwood, Ind. The shooting seems to have been unprovoked. Hall was in a buggy when the shooting occurred, and his horse was in a gallop. He raised up and fired out of the back of the vehicle. The negro was arrested and lodged in the city jail, but the feeling against him was so intense that the sheriff took him out of the town for safe keeping.

Bloodfield is a low under martial law and a provost guard patrols the city. A skirmish line was thrown out at Camp Grant last night to keep the company of which Andrews was a member from breaking out to avenge the murder of their comrade.

FEAR AMERICANS

Will Keep the Philippines and Extend Their Influence in the East.

London, Aug. 19.—The Vienna correspondent of The Times says: "The development of the Philippine question will be watched here with keen interest. Circumstances appear to point to the retention of the islands by America. The fact that Senator Davis, who is a public advocate of complete annexation, and the secretary of state, a supporter of the Hawaiian policy, are appointed commissioners, is regarded as indicating that President McKinley favors their retention."

"It is acknowledged that President McKinley has hitherto manifested exceptional diplomatic tact in his treatment both of the Spanish government and of public opinion in the United States. He conducted the negotiations with such foresight and consideration that the Madrid cabinet has been able gradually to accustom the population to the inevitable sacrifices imposed by the outcome of the war."

"For this reason the mere fact that absolute cession of the Philippines was not expressly stated in the protocol by no means should be regarded as excluding that possibility of at least some approximating to the growing demands of the American people. The prospect of a partition of China is likely to confirm this tendency of American people. The United States are deeply interested from a commercial and industrial standpoint in the future of East Asia. They have the most favorable geographical situation of all the great manufacturing countries, competing there, and it is argued that such an enterprising, energetic people will not willingly forego the present opportunity of securing a footing in those seas which will enable them to establish large mercantile emporiums similar to those already possessed by the English on the main land and which other states are about to found. This consideration is expected to have weight in the final decision of the Philippine question."

The Paris Sale.

Paris, Aug. 19.—The American position in the far east is attracting great attention. The sale says: "The Americans will quadruple the value of the Philippines and Manila will become the rival of Hong-Kong. The United States will have a preponderating situation in Chinese waters. There is no market they desire more eagerly than the Chinese and, though they have been forestalled by other powers, they will assuredly overtake their rivals by the rapidity of their progress in that region, and in the coming break-up of the Chinese empire the United States will not be content with the worst fortunes for their heritage."

AMERICANS AT MANILA.

They Occupy Every Position Formerly Held by Spaniards. Hong-Kong, Aug. 19.—A dispatch from Manila, confirming the capture of the town, says the American troops now occupy every position formerly held by the Spaniards, of whom 6,000 are prisoners. Not a single shot was fired at the fleet.

The dispatch also says that Admiral Dewey picked up the end of the severed cable on Friday, but that the line is not yet in working order.

Merchants are leaving Hong Kong daily for Manila. A great rush of trade is expected.

Hope of Spain and Her Patrons.

London, Aug. 19.—The Madrid correspondent of The Standard says: "Spain and her continental patrons still hope that the United States may be induced not to take advantage of the conquest of Manila, but will be satisfied with coaling stations, trading privileges, etc. Should the retention of Manila be insisted on the United States may meet more trouble even than Japan did in securing the results of her victory over China and at the hands of the same powers."

COLONEL ROOSEVELT

His Lips Sealed on Political Matters While Wearing a Uniform.

New York, Aug. 18.—General Joseph Wheeler last night took command at Camp Wikoff, at Montauk Point, succeeding General Young. The event of the day outside of the arrival of General Wheeler was the discharge of the rough riders and Colonel Roosevelt from the detention camp. There was not a suspicion of serious illness among the men and all were much improved by their stay in the camp. Colonel Roosevelt was in the Third house for some time conferring with a number of friends, who made no secret that their mission was political.

Colonel Roosevelt said, when asked what he thought of the political situation, after reading the newspapers which he had been doing with apparent great interest, replied that his lips were sealed, so far as politics was concerned, by his uniform. While he wore the uniform of the United States army he could not discuss politics or personal matters for publication.

FORGETFULNESS is sometimes a virtue, but what voter can forget the calamity of Grover Cleveland's election in 1892?

MAYOR L. F. WHITESIDES, of Jeffersonville, was nominated for congress by the republicans of the Third district at New Albany yesterday. A good nomination.

THE time for military action is about closed so we may expect activity on the part of the Democratic managers in telling the country how they supported and conducted the war.

Hox. Frank B. Shuts makes an admiral convention chairman. By his speech in assuming the duties of the chair and his manner as presiding officer headed much to his already large circle of friends in the district.

MAYOR J. M. Spencer, of Rising Sun, and Hon. Thos. E. Davidson, of Greensburg, who refused to let their names go before the convention as candidates for congress had many friends in the convention yesterday.

THE name of ex-President Harrison is being suggested to President McKinley as a suitable person to head the peace commission on the part of the United States in deliberation with commissioners from Spain. The wisdom of such a choice would be approved on the part of the American people, almost unanimously, as they have abiding faith in General Harrison's pure and intense patriotism. His character is above reproach. In the Executive office he earned for himself a reputation acquired by few of his predecessors. In the judicial field he has few superiors in legal knowledge. General Harrison could well afford to leave that retirement which he has been seeking of late years when this great national call of duty is sounded and no doubt, if such should come to pass, he will win further honor for himself, and render that distinguished service for which the whole American people today are waiting. If this was in any sense a partisan movement, Republicans would rejoice as a party in the selection of President Harrison, but it is a matter which belongs to the whole nation, and all political parties must be congratulated on the fact that we have such able and distinguished men in the private walks of life who are willing to come forward and serve the nation in the hour of its greatest need.

OUR CANDIDATE.

The Fourth district republicans through their representatives in convention here did a good day's work. The character of the convention is evidence that the party is in good fighting trim and will present a solid front all through the campaign. The nomination of Major Chas. W. Lee is

MAJOR CHAS. W. LEE.

unquestionably a good one and insures active and enthusiastic leadership until the polls close in November. He has the confidence and esteem of the people regardless of party. He is a genial man, an able and eloquent speaker and a good mixer. He is an old soldier, and is a favorite among his comrades. His acquaintances over the district gives him an advantage that he did not have a year ago. He enters the contest against Mr. Griffith with full assurance that he will be able to overcome the democratic majority in the district and be the next representative in congress from the Fourth district. Every republican in the district will work to the end.

A NEW significance will attach to this year's Grand Army Encampment in Cincinnati. There is every reason now to believe that it will partake largely of the nature of a Grand Peace Jubilee, in which veterans of a longer and more destructive war will join with the people in giving expression to their joy that war is again ended and peace once more has spread its wings over the land.

Fusion it Will Be.

The county central committee held another session after the adjournment of the convention yesterday and agreed to the proposition made for a county fusion ticket. The ticket will be made up of men from both parties, an equitable and satisfactory division having been agreed upon. The republicans will have on the ticket candidates for Clerk, Sheriff, one commissioner and Coroner. All details will be announced as made and agreed upon by the committee.

SPANISH GRANDEES.

FAMILY PEDIGREES THAT RUN BACK TEN CENTURIES.

The National Vanity Borders on the Absurdly Grotesque, and Playing the Gentleman Has Been Called "the Endemic Disease of Spain."

It is related that a young guard, having neglected to pay the usual salute to a Spanish duke at the court of Madrid, excused himself by saying that he did not know the nobleman's rank. "My friend," replied his grace, "the safe rule is to assume that everybody in the palace who looks like a monkey is a grandee of the first class."

The truth is the Spanish are a thoroughly mongrel race, and their conceit of themselves amazes us. Their country has probably been often overrun and conquered than any other territory of equal extent in Europe. Phoenician, Carthaginian, Roman, Vandal, Visigoth and Moor have all successfully made it their stamping ground, and the effect of all this upon the pure Castilian blood, whatever that may be, is indelibly stamped on every really Spanish face.

But playing the gentleman has been called "the endemic disease of Spain," and the national vanity is something grotesque. One of their historians seriously advanced the theory that the first inhabitants of the country "arrived by air," so impressed was he by their superhuman qualities that nothing short of a descent from the sky could account for them. A subsequent historian, however, after a long and grave discussion of the question, finally announced his opinion that "they more probably came by land."

After this we need not be astonished that the Spanish claim to possess the oldest families in Europe. The surprising circumstance is that the claim is not wholly without foundation. Their family names can in some cases be traced back to an incredibly remote period, though it must not be assumed that the original blood persists in any purity.

Probably the most ancient family in Spain is the house of Pacheco, whose estates are not far from Cartea, now called Cartaya, in Andalusia. Plutarch tells us that when Crassus fled from Italy he concealed himself for eight months at Ximena, near Cartea, in caves belonging to a Spanish gentleman named Pacicco. Cicero also mentions this generous Spaniard, and there can be no doubt that he was one of the ancestors of the Pacheco family, whose name is obviously derived from his and who still own the caves. This carried them back about 2,000 years, to a period antedating the Christian era, but it is possible to trace the line much further. The name is clearly of Phoenician origin, being ultimately derived from "pat-coi," the word by which the Tyrians designated the carved figurehead of their galleys.

The identification is made more complete by the fact that the Phoenicians were the founders of Cartea, as of Cadiz in the same province. That adds another 1,000 years or so to the Pacheco pedigree. Think of it—a landed estate remaining in the possession of the same family for 3,000 years! This is doubtless the most wonderful family tree in the world and unusually well authenticated. The Pachecos may well be pardoned for taking pride in it, though it roots in rather unsavory soil at last, for the great original Pacheco was evidently a Tyrian freebooter.

Names that trace back to the Carthaginian occupation in the time of Hannibal are also found, and the title of Hannibal's own clan, Barca, is perpetuated by the Barcias and Garcias, well known families of Andalusia. There are also several names of Roman antecedents, as Ponce and Cano, in Latin Pontius and Canus. A Spanish gentleman bearing the latter name was a personal friend of the poet Martial, all of which seems to bring antiquity very near—in Spain. The fact of the matter is she has never emerged from antiquity. The Spanish, however, are inclined to look back to the Goths as "the purest fountain of nobility." This certainly seems a strange perversion of sentiment, for of all the barbarians that came down from the north to lay waste Roman civilization with fire and sword, the Goths, with their cousins, the Vandals, were the most irredeemably villainous.

And these Goths were no extraordinary heroes either, even in war. With supine and bragging incompetency they lost to the Moors in the eight months' campaign a supremacy which it cost eight centuries of conflict to regain. Yet "Gothic of Spain" is the pet phrase. To a rank outsider it would seem that the Basque families have the most honorable lineage, and their pedigrees run back to time immemorial, though not easily traceable. The Basques represent the original population of the Spanish peninsula. Their seat is the mountains of the northern district, and in many ways remind us of the Welsh. They have the same simplicity of life, and the same really justifiable pride of birth, for their blood is the purest in Spain, if that counts for anything. Like the Welsh also, they have to a considerable extent maintained their ancient language, one of the strangest which survive upon the earth, bearing no resemblance to any other in Europe.

These Basque families, for the most part, bear names which appear to be geographical in their origin, as Ugarte, meaning "between waters;" Zubia, "the bridge;" Ibarra, "the valley"—a style which reminds us of our American Indians, although it is found more or less all over the world. The termination "ez," so common in Spanish names, is Basque, and signifies "son," as Perez, son of Peter, exactly like our own Peterson.—Pittsburg Dispatch.

AN ABLE PRACTICAL JOKE.

It created considerable excitement in University City.

The Cambridge (England) Independent Press retells the story of the hoax perpetrated upon the civic and university authorities at Cambridge on the occasion of the visit of the late shah of Persia to that country. It was on Saturday, June 28, 1873, at 11 o'clock in the forenoon, that a telegram was found lying on the hallkeeper's table in the Guildhall. It was directed to the worshipful the mayor of Cambridge, was signed by Lieutenant Colonel Hamilton and read as follows:

"His imperial majesty the shah of Persia desires to visit your university town today en route for London by special, arriving at Cambridge station about 2:10 o'clock. Be prepared with escort and reception as far as time allow."

Instantly everybody began tumbling over his fellow. The town clerk was sent for, and messages were dispatched to the vice chancellor, the members of the corporation, the volunteer officers and the cook of St. Peter's college kitchen. The vice chancellor hurried on his robes, the aldermen and councilors did ditto, the volunteers donned their uniforms, and the cook began to boil and fry.

Nor were the general public behindhand. Flags were hung out and crowds gathered in the street. Dr. Cookson, the vice chancellor (irreverently known in those days as "Dismal Jimmy"), made his way to the station as fast as his dignity would permit. The mayor, Mr. T. H. Naylor, and the corporation followed suit. A guard of honor and carriages were in waiting, and soon everybody was there except the shah. Then the news flew round that the railway officials knew nothing about the special train, and after a brief delay it was apparent that the whole thing was a hoax. The perpetrators of the hoax were never discovered, though two persons were afterward freely mentioned in connection with it. In the year of grace 1873 the era of practical jokes was past, but had the authors of the shah's visit been alive in the days of Theodore Hook they might have lived in literature.

FORGETFULNESS is sometimes a virtue, but what voter can forget the calamity of Grover Cleveland's election in 1892?

MAYOR I. F. WHITESIDES, of Jeffersonville, was nominated for congress by the republicans of the Third district at New Albany yesterday. A good nomination.

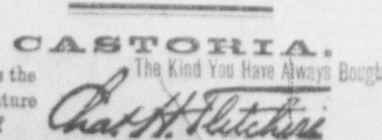

The time for military action is about closed so we may expect activity on the part of the Democratic managers in telling the country how they supported and conducted the war.

Hox, Frank B. Shuts makes an admiral convention chairman. By his speech in assuming the duties of the chair and his manner as presiding officer he added much to his already large circle of friends in the district.

MAYOR J. M. SPENCER, of Rising Sun, and Hon. Thos. E. Davidson, of Greensburg, who refused to let their names go before the convention as candidates for congress had many friends in the convention yesterday.

The name of ex-President Harrison is being suggested to President McKinley as a suitable person to head the peace commission on the part of the United States in deliberation with commissioners from Spain. The wisdom of such a choice would be approved on the part of the American people, almost unanimously, as they have abiding faith in General Harrison's pure and intense patriotism. His character is above reproach. In the Executive office he earned for himself a reputation acquired by few of his predecessors. In the judicial field he has few superiors in legal knowledge. General Harrison could well afford to leave that retirement which he has been seeking of late years when this great national call of duty is sounded and no doubt, if such should come to pass, he will win further honor for himself, and render that distinguished service for which the whole American people today are waiting. If this was in any sense a partisan movement, Republicans would rejoice as a party in the selection of President Harrison, but it is a matter which belongs to the whole nation, and all political parties must be congratulated on the fact that we have such able and distinguished men in the private walks of life who are willing to come forward and serve the nation in the hour of its greatest need.

OUR CANDIDATE.

The Fourth district republicans through their representatives in convention here did a good day's work. The character of the convention is evidence that the party is in good fighting trim and will present a solid front all through the campaign. The nomination of Major Chas. W. Lee is

MAJOR CHAS. W. LEE.

unquestionably a good one and insures active and enthusiastic leadership until the polls close in November. He has the confidence and esteem of the people regardless of party. He is a genial man, an able and eloquent speaker and a good mixer. He is an old soldier, and is a favorite among his comrades. His acquaintances over the district gives him an advantage that he did not have a year ago. He enters the contest against Mr. Griffith with full assurance that he will be able to overcome the democratic majority in the district and be the next representative in congress from the Fourth district. Every republican in the district will work to the end.

A NEW significance will attach to this year's Grand Army Encampment in Cincinnati. There is every reason now to believe that it will partake largely of the nature of a Grand Peace Jubilee, in which veterans of a longer and more destructive war will join with the people in giving expression to their joy that war is again ended and peace once more has spread its wings over the land.

Fusion It Will Be.

The county central committee held another session after the adjournment of the convention yesterday and agreed to the proposition made for a county fusion ticket. The ticket will be made up of men from both parties, an equitable and satisfactory division having been agreed upon. The republicans will have on the ticket candidates for Clerk Sheriff, one commissioner and Coroner. All details will be announced as made and agreed upon by the committee.

The 22d Ind. met in the beautiful grove at Crothersville yesterday evening and after a general handshaking and a comrade's greeting and some martial music in which Chas. SPANISH GRANDEES.

FAMILY PEDIGREES THAT RUN BACK TEN CENTURIES.

The National Vanity Borders on the absurdly grotesque, and playing the Gentleman Has Been Called "the Endemic Disease of Spain."

It is related that a young guard, having neglected to pay the usual salute to a Spanish duke at the court of Madrid, excused himself by saying that he did not know the nobleman's rank. "My friend," replied his grace, "the safe rule is to assume that everybody in the palace who looks like a monkey is a grandee of the first class."

The truth is the Spanish are a thoroughly mongrel race, and their conceit of themselves amazes us. Their country has probably been oftener overrun and conquered than any other territory of equal extent in Europe. Phoenician, Carthaginian, Roman, Vandal, Visigoth and Moor have all successfully made it their stamping ground, and the effect of all this upon the pure Castilian blood, whatever that may be, is indelibly stamped on every really Spanish face.

But playing the gentleman has been called "the endemic disease of Spain," and the national vanity is something grotesque. One of their historians seriously advanced the theory that the first inhabitants of the country "arrived by air," so impressed was he by their superhuman qualities that nothing short of a descent from the sky could account for them. A serious historian, however, after a long and grave discussion of the question, finally announced his opinion that "they more probably came by land."

After this we need not be astonished that the Spanish claim to possess the oldest families in Europe. The surprising circumstance is that the claim is not wholly without foundation. Their family names can in some cases be traced back to an incredibly remote period, though it must not be assumed that the original blood persists in any purity.

Probably the most ancient family in Spain is the house of Pacheco, whose estates are not far from Cartea, now called Cartaya, in Andalusia. Plutarch tells us that when Crassus fled from Italy he concealed himself for eight months at Ximena, near Cartea, in caves belonging to a Spanish gentleman named Pacieus. Cicero also mentions this generous Spaniard, and there can be no doubt that he was one of the ancestors of the Pacheco family, whose name is obviously derived from his and who still own the caves. This carried them back about 2,000 years, to a period antedating the Christian era, but it is possible to trace the line much further. The name is clearly of Phoenician origin, being ultimately derived from "patacol," the word by which the Tyrians designated the carved figurehead of their galleys.

The identification is made more complete by the fact that the Phoenicians were the founders of Cartea, as of Cadiz in the same province. That adds another 1,000 years or so to the Pacheco pedigree. Think of it—a landed estate remaining in the possession of the same family for 3,000 years! This is doubtless the most wonderful family tree in the world and unusually well authenticated. The Pachecos may well be pardoned for taking pride in it, though it roots in rather unsavory soil at last, for the great original Pacheco was evidently a Tyrian freebooter.

Names that trace back to the Carthaginian occupation in the time of Hannibal are also found, and the title of Hannibal's own clan, Barca, is perpetuated by the Barcias and Garcias, well known families of Andalusia. There are also several names of Roman antecedents, as Ponce and Cane, in Latin Pontius and Canus. A Spanish gentleman bearing the latter name was a personal friend of the poet Martial, all of which seems to bring antiquity very near—in Spain. The fact of the matter is she has never emerged from antiquity. The Spanish, however, are inclined to look back to the Goths as "the purest fountain of nobility." This certainly seems a strange perversion of sentiment, for of all the barbarians that came down from the north to lay waste Roman civilization with fire and sword, the Goths, with their cousins, the Vandals, were the most irredeemably villainous.

And these Goths were no extraordinary heroes either, even in war. With supine and bragart incompetency they lost to the Moors in the eight months' campaign a supremacy which it cost eight centuries of conflict to regain. Yet "Gothic of Spain" is the pet phrase.

To a rank outsider it would seem that the Basque families have the most honorable lineage, and their pedigrees run back to time immemorial, though not easily traceable. The Basques represent the original population of the Spanish peninsula. Their seat is the mountains of the northern district, and in many ways remind us of the Welsh. AN ABLE PRACTICAL JOKE.

It Created Considerable Excitement in University City.

The Cambridge (England) Independent Press retells the story of the hoax perpetrated upon the civic and university authorities at Cambridge on the occasion of the visit of the late shah of Persia to that country. It was on Saturday, June 28, 1873, at 11 o'clock in the forenoon, that a telegram was found lying on the hallkeeper's table in the Guildhall. It was directed to the worshipful the mayor of Cambridge, was signed by Lieutenant Colonel Hamilton and read as follows:

"His imperial majesty the shah of Persia desires to visit your university town today en route for London by special, arriving at Cambridge station about 2:10 o'clock. Be prepared with escort and reception as far as time allows."

Instantly everybody began tumbling over his fellow. The town clerk was sent for, and messages were dispatched to the vice chancellor, the members of the corporation, the volunteer officers and the cook of St. Peter's college kitchen. The vice chancellor hurried on his robes, the aldermen and councilors did ditto, the volunteers donned their uniforms, and the cook began to boil beef.

Nor were the general public behindhand. Flags were hung out and crowds gathered in the street. Dr. Cookson, the vice chancellor (irreverently known in those days as "Dismal Jimmy"), made his way to the station as fast as his dignity would permit. The mayor, Mr. T. H. Naylor, and the corporation followed suit. A guard of honor and carriages were in waiting, and soon everybody was there except the shah. Then the news flew round that the railway officials knew nothing about the special train, and after a brief delay it was apparent that the whole thing was a hoax. The perpetrators of the hoax were never discovered, though two persons were afterward freely mentioned in connection with it. In the year of grace 1873 the era of practical jokes was past, but had the authors of the shah's visit been alive in the days of Theodore Hood they might have lived in literature.

IN SOME DOUBT

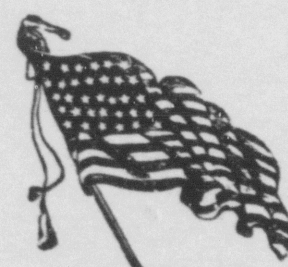

IS THE EXTENT OF TERRITORY SURRENDERED TO DEWEY AND MERITT.

Spanish Officers At Havana not in Good Humor—The Service of Disorder in Porto Rico

The Administration at Washington is in doubt whether the surrender to Dewey and Meritt included the entire Philippine Archipelago or only Manila. All press reports of the term of capitulation agree in saying that the capitulation covered the Philippines. The reports of Admiral Dewey and Gen. Meritt do not clear up the point. But under the instructions sent to Gen. Meritt the United States forces will maintain order through all the territory surrendered to them, holding the insurgents in check until the fate of the island has been settled. The insurgents have been winning victories over the Spanish in South Luzon.

The Spanish officials at Havana are sullen and disposed to make as much trouble as possible. Until the military commission has arrived, they refuse to allow American passengers to land at Havana, and will not permit American merchant vessels to remain in the harbor after unloading. They even refuse to permit Americans arriving with loads of provision to communicate with the British Consul and ascertain the fate of their cargoes.

The Spanish resident of Porto Rico are accepting the situation with better grace than the natives. The latter are disposed to be riotous and have attacked the Spanish at several points. Capt. Gen. Macias has appealed to Gen. Miles for assistance in preserving order. The wealthy Spanish residents do not talk of leaving the island.

IN SOME DOUBT

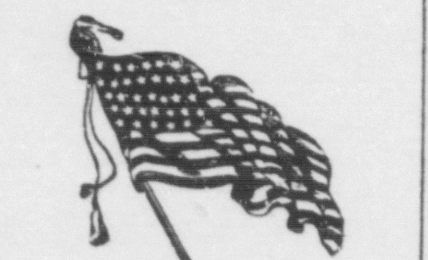

IS THE EXTENT OF TERRITORY SURRENDERED TO DEWEY AND MERITT.

Spanish Officers At Havana not in Good Humor—The Service of Disorder in Porto Rico

The Administration at Washington is in doubt whether the surrender to Dewey and Meritt included the entire Philippine Archipelago or only Manila. All press reports of the terms of capitulation agree in saying that the capitulation covered the Philippines. The reports of Admiral Dewey and Gen. Meritt do not clear up the point. But under the instructions sent to Gen. Meritt the United States forces will maintain order through all the territory surrendered to them, holding the insurgents in check until the fate of the island has been settled. The insurgents have been winning victories over the Spanish in South Luzon.

The Spanish officials at Havana are sullen and disposed to make as much trouble as possible. Until the military commission has arrived, they refuse to allow American passengers to land at Havana, and will not permit American merchant vessels to remain in the harbor after unloading. They even refuse to permit Americans arriving with loads of provision to communicate with the British Consul and ascertain the fate of their cargoes.

The Spanish resident of Porto Rico are accepting the situation with better grace than the natives. The latter are disposed to be riotous and have attacked the Spanish at several points. Capt. Gen. Macias has appealed to Gen. Miles for assistance in preserving order. The wealthy Spanish residents do not talk of leaving the island.

A sister of Mrs. Abraham Lincoln will contribute to McClure's Magazine for September an article giving reminiscences and recollections of Mrs. Lincoln, along with passages from her letters that furnish an intimate and very agreeable view of her home life and her relations with her husband, the great war president.

About one month ago my child which is fifteen months old had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumpsville, Gilmer Co., Va. For sale by C. W. Milhous.

Three excursions to those popular Northern Michigan resorts will be run via Pennsylvania lines this season. The dates are Tuesday Aug. 30, Wednesday Sept. 3 and Saturday Sept. 7. See G. O. L. Williams, ticket agent, Seymour, about them.

We have used Chamberlain's Cough Remedy in our home for many years and bear cheerful testimony to its value as a medicine which should be in every family. In coughs and colds we have found it to be efficacious and in croup and whooping cough in children we deem it indispensable.—H. P. Ritter, 9126 Fairfax ave., St. Louis. Mo. For sale by C. W. IN A LONDON THEATER.
A First Night as Seen by the Artist C. D. Gibson.
A London audience is brilliant. Every one is in evening dress, and the audience is often more entertaining than the play. This is especially true on a first night. At such times the pit is watched most anxiously by the management, as the success of the piece generally depends on its verdict. It has often occurred to me, when I have seen people on a stormy night forming a line on the pavement outside the pit entrance, taking it all seriously enough to stand there for hours before the doors were opened, that by letting them inside, the management might improve their spirits and they in their turn might be more genial.

And it has also occurred to me when I have seen a stout man standing in the aisle fumbling for a sixpence or a shilling in pockets that probably only contain a bank note and a glass pipe, that the management might further improve the spirits of its audience by letting away with vulgar actors, and by letting the programme at the same time it sells the seat, for it is hardly likely to the first act of a play to make it ever come the frolicfulness caused by moneyed attendants before it can hope to succeed. But the second act is sure to have a fair start, and if the play is good from there on it will have no reason to complain of the audience.—C. D. Gibson in Scribner's.

Try Holding Your Breath.
The modern quick moving elevator, when it sinks suddenly, gives many persons an unpleasant, qualmish feeling. Into a well filled elevator in a big shopping store the other day stepped from one of the floors two women.
"Do you know," said one of them to the other, "that if you hold your breath going down in an elevator you don't have that unpleasant feeling; you don't feel it at all."
Of course nobody in the elevator listened intentionally, but nobody could help hearing what she said. Conversation instantly ceased, and everybody drew a long breath. The elevator shot downward in silence.
"Ground floor!" said the elevator man as he threw back the door, and the women streamed out from the car upon the floor, talking now gayly, and there was one at least who said that the plan was effective.—New York Sun.

One For the Debating Club.
A group of half a dozen physicians, all eminent, a sheet of paper, a pencil. With the latter one of the group draws a pulley, a cord over the pulley, a tree, a lough from which the pulley hangs. To one end of the cord is attached a stone, to the other end a monkey. The stone balances the monkey. If the monkey proceeds to climb up the cord, what will happen? Will the stone rise or fall? Heated discussion; break up of the party; no result. Can any of your readers help to settle this question?—Alfred Jingle in Engineer.

Chicago Union Officers Arrested For Conspiracy at Hammond.
ISAAC SNOW AT LARGE

Horse Bites Its Owner's Face Off—Public Sentiment Upholds Young Castle For Killing His Father—Drowned Himself. Returned From the Klondike Without Gold—Fairbanks Goes to Quebec.

Hammond, Ind., Aug. 19.—The difficulty between the W. B. Conkey company and the Chicago printers' and pressmen's union has assumed grave proportions. Peter Deinart, president of Pressmen's union, No. 3, and George Thompson, organizer of Typographical union, No. 16, have been arrested, both charged with conspiracy on warrants issued from the circuit court at Crown Point. Their bond was fixed at \$5,000. They take their arrest quite philosophically and ridicule the idea of a conviction on such a charge.
John W. Fredrick was also arrested charged with assaulting John W. King, a foreman in the Conkey pressrooms. The bond is \$850. A warrant of conspiracy was issued for George W. Day, president of Typographical union No. 19, but he crossed over into Illinois. Other warrants are also said to be in the officer's hands.
Senator W. H. Gostlin assaulted John Garrett, a striker, telling him to the street and brutally kicking him. The fight ended there, but a warrant is out charging Gostlin with assault, and another charging Garrett with provoking an assault.

KLONDIKERS
Return Home Mentally, Physically and Financially Wrecked.
Jeffersonville, Ind., Aug. 19.—Of the 110 ship carpenters who left here last February for Alaska, to build boats for the Alaska Commercial company, 35 have returned home. They reached San Francisco on the steamer Dirigo along with 60 prospectors. Of the whole lot but two will return, and only two had any gold worth mentioning. When the Dirigo left St. Michael's the ship carpenters say fully 1,000 men stood on the bank unable to get away for want of funds to pay their passage. Two-thirds of the 60 who did embark on the Dirigo are said to be wrecks, mentally, physically and financially.

PUBLIC SENTIMENT.
Upholds Young Castle For Killing His Father.
Booneville, Ind., Aug. 19.—Benjamin Castle, a prosperous farmer living near Chandler, who was shot by his son while the former was assaulting his wife, was buried yesterday. Castle had choked the woman to unconsciousness when the boy fired two shots which resulted in death after two days. The coroner's jury returned a verdict of justifiable homicide. Public sentiment is in favor of the son.

He was a popular Crawfordsville boy, and passed a better physical examination than any other man in the company.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

Mr. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so many patent medicines and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

BLANCO ONE OF THEM

Porto Rican and Cuban Commissioners Appointed by Spain.

Said to Have Included the Whole Philippines Archipelago.

CAPITULATION OF MANILA

OFFICIALS IN DOUBT

As to Our Authority Over the Captured Territory—State Department Receives Congratulations From Panchofote Over the Termination of the War—Reinforcements and Ammunition For Merritt—Chickamauga News—Telegraph Censorship Removed—Natives In Porto Rico Show a Disposition to Persecute Spanish Residents.

London, Aug. 19.—The Madrid correspondent of the Daily News says that Generals Blanco and Castellanos Leon and Admiral Manterola, have been appointed commissioners for Cuba and Generals Macias and Ortega and Ad-

miral Vallarino for Porto Rico. It is probable, the correspondent says, that General Leon y Castillo, the Spanish ambassador to France, will preside at the sessions of the Paris commission. General Macias' candidature is made impossible by the hostile attitude of the press.

OUR AUTHORITY.

Officials in Doubt As to Its Extent in the Philippines.

Washington, Aug. 19.—The war department made public yesterday the dispatch of General Merritt, giving the official story of Manila's fall, and also the text of the significant instructions sent General Merritt, requiring the insurgents and all others to recognize the authority of the United States in the territory occupied by its forces.

Nothing has been heard from General Merritt as to the casualties last Saturday, except that he estimated the killed and wounded at 50. Another point on which the officials are without definite information is as to the extent of our present authority in the Philippines.

Under the peace protocol the United States was given the occupation of Manila, with the bay and harbor, until a permanent disposition of the Philippine

question was reached, but according to press dispatches, which are so circumstantial as to be credited in most official places, General Merritt and Admiral Dewey received the capitulation of the entire Philippines Archipelago.

There appears to be some doubt, therefore, even among officials, as to whether our present authority and jurisdiction covers Manila only, as provided by the peace protocol, or covers all the Philippines, as provided by the reported terms of capitulation to Merritt and Dewey. There is a disposition to await fuller official information before laying down a policy as to the extent of our jurisdiction in the islands.

Secretary Alger said that he had heard nothing official of the surrender of the entire Philippine group. At the same time the secretary did not discredit the accuracy of the press advices stating that the capitulation had this far-reaching effect.

Will Await Definite Information.

Pending more definite information the attitude of officials is to assume that our authority covers Manila city, Manila bay and harbor, and also such other territory as may be occupied by the military and naval forces. The latter phrase is elastic enough to cover any or all of the Philippine Islands that may have been brought under our authority by the recent surrender.

The instructions sent to General Merritt have in view the expansion of our possessions beyond the terms mentioned in the protocol as they distinctly state that this government is in possession of Manila and that its authority to preserve peace and order will be exerted "within the territory occupied by their military and naval forces." The cabinet meeting today is expected to deal with the many detailed questions concerning the Philippines, Cuba and Porto Rico, which have arisen since the peace protocol was signed.

The state department has received another international congratulation on the restoration of peace, this one coming from the British ambassador, Sir Julian Pauncefote, who is now sojourning at New London, Conn. The ambassador communicated the expression of profound gratification with which her majesty's government learned of the signature of the preliminaries of peace between the United States and Spain and the sincere congratulations to the president and the government of the United States upon the termination of the war.

Acting Secretary Allen extended to the French ambassador, M. Cambon, the courtesy of going on the flag ship New York during the naval review at New York tomorrow. The ambassador had already arranged, however, to witness the review from the tug of the French Transatlantic line.

NEXT WEEK

The Troops at Chickamauga Expect to Move to Their New Camps.

Chickamauga, Ga., Aug. 19.—There is no longer any doubt about the early departure for new camping grounds of the Second and Third divisions of the First corps. General Breckinridge, acting under instructions from Washington, has issued orders to General McKee, commanding the Second division, and General Sanger, commanding the Third division, to hold their respective regiments in readiness for departure. The camp at Knoxville and that at Lexington, Ky., are being put in proper condition as rapidly as possible. Water-pipes are being laid and all the details are expected to be ready within a few days.

It is General Breckinridge's opinion that the orders to move camp will be executed during the early part of next week. General McKee's brigade will probably march to Knoxville, a distance of 120 miles.

CEDED THE ARCHIELAGO.

Terms Agreed Upon by Merritt and Jaudenes Give Us the Philippines.

London, Aug. 19.—The Hong-Kong correspondent of The Daily Mail says: "The terms of the capitulation of Manila, as agreed upon Saturday between General Jaudenes and General Merritt, includes the cession of the Philippine Archipelago to the United States."

"An American naval officer who arrived from Manila on the Zafiro tells me that the Americans practically walked into Manila. The operations, he says, were confined to the Malate side of the city, where the Spaniards had a fort and two lines of trenches. The troops waded through the Malate river and walked up the beach as though going to lunch, meeting practically no opposition."

"I learn that when General Merritt went ashore after the capitulation of Manila he experienced some difficulty in finding General Jaudenes, who ultimately was found in a church among a crowd of women and children."

GOING TO HONOLULU.

New York Troops Sail on the Alliance—Ammunition For Merritt.

San Francisco, Aug. 19.—Three hundred and twenty-five officers and men of the New York regiment have embarked on board the steamship Alliance and will sail for Honolulu today. The Red Cross society furnished the New York boys with a luncheon before they went on board ship.

When the Scandia and Arizona sail Sunday they will have on board, in addition to their complement of reinforcements for General Merritt, a million rounds of ammunition for small arms. It is now being rushed from the east by fast trains and will be placed on the ships tomorrow.

UNPROVOKED MURDER

Alonzo Andrews, 160th Indiana, Shot Down In Cold Blood.

JACOB ALTMIRE WOUNDED

Shots Were Fired by a Colored Saloon-keeper at Bloodfield, a Negro Settlement Near Newport News—Martial Law Declared—Skinsmen Line Thrown Out to Prevent Andrews' Comrades Avenging His Death.

Newport News, Va., Aug. 19.—Private Alonzo Andrews of the Company I, One Hundred and Sixtieth Indiana regiment, was shot and killed by Samuel Hall, a colored saloonkeeper in Bloodfield, a negro settlement in this county, yesterday afternoon. Then Private Jacob Altmire of the same company was wounded in the left foot by the same negro. Both of the men formerly lived at Elwood, Ind. The shooting seems to have been unprovoked. Hall was in a buggy when the shooting occurred, and his horse was in a gallop. He raised up and fired out of the back of the vehicle. The negro was arrested and lodged in the city jail, but the feeling against him was so intense that the sheriff took him out of the town for safe keeping.

Bloodfield is low under martial law and a provost guard patrols the city. A skirmish line was thrown out at Camp Grant last night to keep the company of which Andrews was a member from breaking out to avenge the murder of their comrade.

FEAR AMERICANS

Will Keep the Philippines and Extend Their Influence in the East.

London, Aug. 19.—The Vienna correspondent of The Times says: "The development of the Philippine question will be watched here with keen interest. Circumstances appear to point to the retention of the islands by America. The fact that Senator Davis, who is a public advocate of complete annexation, and the secretary of state, a supporter of the Hawaiian policy, are appointed commissioners, is regarded as indicating that President McKinley favors their retention."

"It is acknowledged that President McKinley has hitherto manifested exceptional diplomatic tact in his treatment both of the Spanish government and of public opinion in the United States. He conducted the negotiations with such foresight and consideration that the Madrid cabinet has been able gradually to accustom the population to the inevitable sacrifices imposed by the outcome of the war."

"For this reason the mere fact that absolute cession of the Philippines was not expressly stated in the protocol by no means should be regarded as excluding that possibility of at least some approximation to the growing demands of the American people. The prospect of a partition of China is likely to confirm this tendency of American people. The United States are deeply interested from a commercial and industrial standpoint in the future of East Asia. They have the most favorable geographical situation of all the great manufacturing countries, competing there, and it is argued that such an enterprising, energetic people will not willingly forego the present opportunity of securing a footing in those seas which will enable them to establish large mercantile emporiums similar to those already possessed by the English on the main land and which other states are about to found. This consideration is expected to have weight in the final decision of the Philippine question."

The Paris Solei.

Paris, Aug. 19.—The American position in the far east is attracting great attention. The Solei says: "The Americans will quadruple the value of the Philippines and Manila will become the rival of Hong-Kong. The United States will have a preponderating situation in Chinese waters. There is no market they desire more eagerly than the Chinese and, though they have been forestalled by other powers, they will assuredly overtake their rivals by the rapidity of their progress in that region, and in the coming break-up of the Chinese empire the United States will not be content with the worst fortunes for their heritage."

AMERICANS AT MANILA.

They Occupy Every Position Formerly Held by Spaniards.

Hong-Kong, Aug. 19.—A dispatch from Manila, confirming the capture of the town, says the American troops now occupy every position formerly held by the Spaniards, of whom 6,000 are prisoners. Not a single shot was fired at the fleet.

The dispatch also says that Admiral Dewey picked up the end of the severed cable on Friday, but that the line is not yet in working order.

Merchants are leaving Hong Kong daily for Manila. A great rush of trade is expected.

Hope of Spain and Her Patrons.

London, Aug. 19.—The Madrid correspondent of The Standard says: "Spain and her continental patrons still hope that the United States may be induced not to take advantage of the conquest of Manila, but will be satisfied with coaling stations, trading privileges, etc. Should the retention of Manila be insisted on the United States may meet more trouble even than Japan did in securing the results of her victory over China and at the hands of the same powers."

COLONEL ROOSEVELT

His Lips Sealed on Political Matters While Wearing a Uniform.

New York, Aug. 18.—General Joseph Wheeler last night took command at Camp Wikoff, at Montauk Point, succeeding General Young. The event of the day outside of the arrival of General Wheeler was the discharge of the rough riders and Colonel Roosevelt from the detention camp. There was not a suspicion of serious illness among the men and all were much improved by their stay in the camp. Colonel Roosevelt was in the Third house for some time conferring with a number of friends, who made no secret that their mission was political.

Colonel Roosevelt said, when asked what he thought of the political situation, after reading the newspapers which he had been doing with apparent great interest, replied that his lips were sealed, so far as politics was concerned, by his uniform. While he wore the uniform of the United States army he could not discuss politics or personal matters for publication.

MODEL PRISONER

Discovered Stealing Shoes at the Kentucky State Penitentiary.

Frankfort, Ky., Aug. 19.—Warden Lilard and his assistants at the Frankfort penitentiary have unearthed a big steel that has been going on for a long time in the shoe department. The shoe manufacturers had complained about losing shoes before the prison changed hands Aug. 1, but no one had been caught. Now Samuel Davis, a negro from Woodford county, who has been regarded as a model prisoner, has been detected with several pairs of shoes in his possession.

He is the ringleader and implicated other prisoners and a former guard at the prison. Their plan was to smuggle the shoes out by "trusties," who sold them to citizens. Several hundred dollars' worth were smuggled out, one and two pairs at a time.

Tania with 357 convalescents left for Montauk Point this morning."

FORGETFULNESS is sometimes a virtue, but what voter can forget the calamity of Grover Cleveland's election in 1892?

MAYOR L. F. WHITESIDES, of Jeffersonville, was nominated for congress by the republicans of the Third district at New Albany yesterday. A good nomination.

The time for military action is about closed so we may expect activity on the part of the Democratic managers in telling the country how they supported and conducted the war.

Hon. Frank B. Shuts makes an admiral convention chairman. By his speech in assuming the duties of the chair and his manner as presiding officer he added much to his already large circle of friends in the district.

MAYOR J. M. SPENCER, of Rising Sun, and Hon. Thos. E. Davidson, of Greensburg, who refused to let their names go before the convention as candidates for congress had many friends in the convention yesterday.

The name of ex-President Harrison is being suggested to President McKinley as a suitable person to head the peace commission on the part of the United States in deliberation with commissioners from Spain. The wisdom of such a choice would be approved on the part of the American people, almost unanimously, as they have abiding faith in General Harrison's pure and intense patriotism. His character is above reproach. In the Executive office he earned for himself a reputation acquired by few of his predecessors. In the judicial field he has few superiors in legal knowledge. General Harrison could well afford to leave that retirement which he has been seeking of late years when this great national call of duty is sounded and no doubt, if such should come to pass, he will win further honor for himself, and render that distinguished service for which the whole American people today are waiting. If this was in any sense a partisan movement, Republicans would rejoice as a party in the selection of President Harrison, but it is a matter which belongs to the whole nation, and all political parties must be congratulated on the fact that we have such able and distinguished men in the private walks of life who are willing to come forward and serve the nation in the hour of its greatest need.

OUR CANDIDATE.

The Fourth district republicans through their representatives in convention here did a good day's work. The character of the convention is evidence that the party is in good fighting trim and will present a solid front all through the campaign. The nomination of Major Chas. W. Lee is

MAJOR CHAS. W. LEE.

unquestionably a good one and insures active and enthusiastic leadership until the polls close in November. He has the confidence and esteem of the people regardless of party. He is a genial man, an able and eloquent speaker and a good mixer. He is an old soldier, and is a favorite among his comrades. His acquaintances over the district gives him an advantage that he did not have a year ago. He enters the contest against Mr. Griffith with full assurance that he will be able to overcome the democratic majority in the district and be the next representative in congress from the Fourth district. Every republican in the district will work to the end.

A new significance will attach to this year's Grand Army Encampment in Cincinnati. There is every reason now to believe that it will partake largely of the nature of a Grand Peace Jubilee, in which veterans of a longer and more destructive war will join with the people in giving expression to their joy that war is again ended and peace once more has spread its wings over the land.

Fusion it Will Be.

The county central committee held another session after the adjournment of the convention yesterday and agreed to the proposition made for a county fusion ticket. The ticket will be made up of men from both parties, an equitable and satisfactory division having been agreed upon. The republicans will have on the ticket candidates for Clerk Sheriff, one commissioner and Coroner. All details will be announced as made and agreed upon by the committee.

Comrades of the 22d.

The 22nd Ind. met in the beautiful grove at Crothersville yesterday evening and after a general handshaking and a comrade's greeting and some martial music in which Chas. Suken, our old regimental flier, Pres. W. H. Thomas called the meeting to order. Our old regimental chaplain E. F. P. Walls invoked a divine blessing. Secretary England read the minutes of last meeting which were approved. The Secretary then read the mortuary report which showed W. H. Golden, John Shea, George Mitchell, H. M. Trickett, John Schaffer, John Meyers, John McCoy, Andrew Woods, and Henry Lannis had died since our last meeting. Comrade Brazeton, of California, then gave us a talk. Then a heavy rain set in and we adjourned until 8 o'clock p. m. There are about seventy-five members of the regiment present.

SPANISH GRANDEES.

FAMILY PEDIGREES THAT RUN BACK TEN CENTURIES.

The National Vanity Borders on the Absurdly Grotesque, and Playing the Gentlemen Has Been Called "The Endemic Disease of Spain."

It is related that a young guard, having neglected to pay the usual salute to a Spanish duke at the court of Madrid, excused himself by saying that he did not know the nobleman's rank. "My friend," replied his grace, "the safe rule is to assume that everybody in the palace who looks like a monkey is a grandee of the first class."

The truth is the Spanish are a thoroughly mongrel race, and their conceit of themselves amazes us. Their country has probably been often overrun and conquered than any other territory of equal extent in Europe. Phoenician, Carthaginian, Roman, Vandal, Visigoth and Moor have all successfully made it their stamping ground, and the effect of all this upon the pure Castilian blood, whatever that may be, is indelibly stamped on every really Spanish face.

But playing the gentleman has been called "the endemic disease of Spain," and the national vanity is something grotesque. One of their historians seriously advanced the theory that the first inhabitants of the country "arrived by air," so impressed was he by their superhuman qualities that nothing short of a descent from the sky could account for them. A subsequent historian, however, after a long and grave discussion of the question, finally announced his opinion that "they more probably came by land."

After this we need not be astonished that the Spanish claim to possess the oldest families in Europe. The surprising circumstance is that the claim is not wholly without foundation. Their family names can in some cases be traced back to an incredibly remote period, though it must not be assumed that the original blood persists in any purity.

Probably the most ancient family in Spain is the house of Pacheco, whose estates are not far from Cartea, now called Cartaya, in Andalusia. Plutarch tells us that when Crassus fled from Italy he concealed himself for eight months at Ximena, near Cartea, in caves belonging to a Spanish gentleman named Pacheco. Cicero also mentions this generous Spaniard, and there can be no doubt that he was one of the ancestors of the Pacheco family, whose name is obviously derived from his and who still own the caves. This carried them back about 2,000 years, to a period antedating the Christian era, but it is possible to trace the line much further. The name is clearly of Phoenician origin, being ultimately derived from "patacoi," the word by which the Tyrians designated the carved figurehead of their galleys.

The identification is made more complete by the fact that the Phoenicians were the founders of Cartea, as of Cadiz in the same province. That adds another 1,000 years or so to the Pacheco pedigree. Think of it—a landed estate remaining in the possession of the same family for 3,000 years! This is doubtless the most wonderful family tree in the world and unusually well authenticated. The Pachecos may well be pardoned for taking pride in it, though it roots in rather unsavory soil at last, for the great original Pacheco was evidently a Tyrian freebooter.

Names that trace back to the Carthaginian occupation in the time of Hannibal are also found, and the title of Hannibal's own clan, Barca, is perpetuated by the Barcias and Garcias, well known families of Andalusia. There are also several names of Roman antecedents, as Ponce and Cane, in Latin Pontius and Canus. A Spanish gentleman bearing the latter name was a personal friend of the poet Martial, all of which seems to bring antiquity very near—in Spain. The fact of the matter is she has never emerged from antiquity.

The Spanish, however, are inclined to look back to the Goths as "the purest fountain of nobility." This certainly seems a strange perversion of sentiment, for of all the barbarians that came down from the north to lay waste Roman civilization with fire and sword the Goths, with their cousins, the Vandals, were the most irredeemably villainous.

And these Goths were no extraordinary heroes either, even in war. With supine and bragging incompetency they lost to the Moors in the eight months' campaign a supremacy which it cost eight centuries of conflict to regain. Yet "Gothic of Spain" is the pet phrase. To a rank outsider it would seem that the Basque families have the most honorable lineage, and their pedigrees run back to time immemorial, though not easily traceable. The Basques represent the original population of the Spanish peninsula. Their seat is the mountains of the northern district, and in many ways remind us of the Welsh. They have the same simplicity of life, and the same really justifiable pride of birth, for their blood is the purest in Spain, if that counts for anything. Like the Welsh also, they have to a considerable extent maintained their ancient language, one of the strangest which survive upon the earth, bearing no resemblance to any other in Europe.

These Basque families, for the most part, bear names which appear to be geographical in their origin, as Ugarte, meaning "between waters;" Zubia, "the bridge;" Ibarra, "the valley"—a style which reminds us of our American Indians, although it is found more or less all over the world. The termination "ez," so common in Spanish names, is Basque, and signifies "son," as Perez, son of Peter, exactly like our own Peterson.—Pittsburg Dispatch.

AN ABLE PRACTICAL JOKE.

It created considerable excitement in University City.

The Cambridge (England) Independent Press retells the story of the hoax perpetrated upon the civic and university authorities at Cambridge on the occasion of the visit of the late shah of Persia to that country. It was on Saturday, June 28, 1873, at 11 o'clock in the forenoon, that a telegram was found lying on the hallkeeper's table in the Guildhall. It was directed to the worshipful the mayor of Cambridge, was signed by Lieutenant Colonel Hamilton and read as follows:

"His imperial majesty the shah of Persia desires to visit your university town today en route for London by special, arriving at Cambridge station about 1:10 o'clock. Be prepared with escort and reception as far as time allows."

Instantly everybody began tumbling over his fellow. The town clerk was sent for, and messages were dispatched to the vice chancellor, the members of the corporation, the volunteer officers and the cook of St. Peter's college kitchen. The vice chancellor hurried on his robes, the aldermen and councilors did ditto, the volunteers donned their uniforms, and the cook began to boil and fry.

Nor were the general public behindhand. Flags were hung out and crowds gathered in the street. Dr. Cookson, the vice chancellor (irreverently known in those days as "Dismal Jimmy"), made his way to the station as fast as his dignity would permit. The mayor, Mr. T. H. Naylor, and the corporation followed suit. A guard of honor and carriages were in waiting, and soon everybody was there except the shah. Then the news flew round that the railway officials knew nothing about the special train, and after a brief delay it was apparent that the whole thing was a hoax. The perpetrators of the hoax were never discovered, though two persons were afterward freely mentioned in connection with it. In the year of grace 1873 the era of practical jokes was past, but had the authors of the shah's visit been alive in the days of Theodore Hook they might have lived in literature.

IN SOME DOUBT

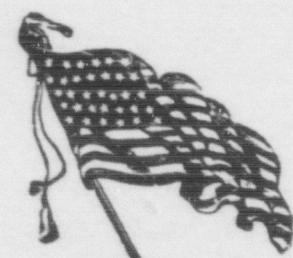

IS THE EXTENT OF TERRITORY SURRENDERED TO DEWEY AND MERITT.

Spanish Officers At Havana not in Good Humor—The Service of Disorder in Porto Rico.

The Administration at Washington is in doubt whether the surrender to Dewey and Meritt included the entire Philippine Archipelago or only Manila. All press reports of the term of capitulation agree in saying that the capitulation covered the Philippines. The reports of Admiral Dewey and Gen. Meritt do not clear up the point. But under the instructions sent to Gen. Meritt the United States forces will maintain order through all the territory surrendered to them, holding the insurgents in check until the fate of the island has been settled. The insurgents have been winning victories over the Spanish in South Luzon.

The Spanish officials at Havana are sullen and disposed to make as much trouble as possible. Until the military commission has arrived, they refuse to allow American passengers to land at Havana, and will not permit American merchant vessels to remain in the harbor after unloading. They even refuse to permit Americans arriving with loads of provision to communicate with the British Consul and ascertain the fate of their cargoes.

The Spanish resident of Porto Rico are accepting the situation with better grace than the natives. The latter are disposed to be riotous and have attacked the Spanish at several points. Capt. Gen. Macias has appealed to Gen. Miles for assistance in preserving order. The wealthy Spanish residents do not talk of leaving the island.
